BlastRFQ

Hard to find parts and equipment, delivered to government. We hold the contract. American manufacturers build the product.

CAPABILITY STATEMENT
11 SEPTEMBER 2026

CONTRACT AWARDEE
US Army, MICC Fort Drum. Purchase order W911S226PB224, signed by the contracting officer 02 September 2026.

CONTROLLED DATA
JCP certification 0092863 with DLA Enhanced Validation, valid to 13 August 2031. We can receive militarily critical technical data.

CYBER POSTURE
NIST SP 800-171 self assessment posted in SPRS, UID SB00159850, score 78, assessed 30 August 2026.

WHAT WE DO

BlastRFQ finds the parts and equipment a government buyer cannot easily source, and delivers them. We hold the contract and carry the accountability. The product is built or supplied by American manufacturers and their authorized distributors. The buyer gets one supplier of record, one purchase order and one person to call.

We manufacture nothing, and we say so on the first line rather than the last. What we sell is the sourcing, the compliance and the control around it. We do not quote work we cannot place, and we return an honest no bid when a requirement sits outside what we can supply.

HOW AN ORDER RUNS

1. **Send the requirement.** A part number, an NSN, a drawing reference or a plain description, with quantity and delivery point.
2. **We source and quote.** American manufacturer or authorized distributor identified, specification checked line by line, priced delivered to the receiving point, filed inside the deadline.
3. **We hold the order and deliver.** Purchase order to BlastRFQ LLC, shipment to the facility on the paperwork, invoice through WAWF in PIEE, one person to call from award to receipt.

PAST PERFORMANCE

US Army, MICC Fort Drum. Purchase order W911S226PB224, 29,936 dollars. Three PowerBoss PHX3030QPG walk behind scrubbers plus a delivery line. Awarded under solicitation W911S226U4006. Contracting officer signed 02 September 2026. — Sep 2026

FOR MANUFACTURERS

- **GSA schedule management.** We run the schedule so your product stays sellable to federal buyers without your people learning the system.
- **Federal bids found and quoted.** We watch the boards daily, pull what fits your product, and write the quote.
- **Military labeling and compliance paperwork.** Marking, packaging, registrations and the certification set that federal orders demand.

If only four shops in America can make your part, we know which four.

WHAT WE SUPPLY

- Floor care and cleaning equipment
- Industrial and janitorial chemicals
- Sheet metal stampings and formed parts
- Deep drawn components and housings
- Precision machining and assembly
- Hardware, fasteners and fittings
- Valves, hose and plumbing supplies
- Electrical apparatus and wiring supplies
- HVAC parts and air handling components
- Identification labels, nameplates and placards
- Safety and material handling equipment

WHERE WE QUOTE

DLA Internet Bid Board System (DIBBS) on CAGE 21X33, SAM.gov contract opportunities, Unison Marketplace, and prime contractor supplier portals for sub tier supply. Payment by EFT to the account registered in SAM, or by Government Purchase Card on micro purchases.
